RIVELLA	€ 3,-
STILL / SPARKLING WATER	€ 2,50

MADE BLUE WATER - Fresh drinking water for everybody

We serve our own water from tap water coolers from MADE BLUE. That is much more sustainable than water from bottles that involve a lot of transport and waste. In addition, each bottle/carafe ensures 1000 times its content of clean drinking water in developing countries. That is very important, because unfortunately there are still many countries where people have to walk for hours a day to get water. Water that is often still polluted as well. This people cannot work or go to school and can never build a healthy life.

MADE BLUE invests on our behalf in water supplies in countries where there is permanent water scarcity as in Ethiopia, Tanzania and Vietnam. For example, 1000 liters of clean drinking water is enough for a child to be able to drink water at school for a year.

You can read all about it on the MADE BLUE website: <http://www.madeblue.org>
